

SEASON 2 / EPISODE 07

IS SOCIAL MEDIA EVERYTHING BUT SOCIAL?

This episode discusses the evolution of social media and its impact on personal interactions. It highlights how social media was originally designed for connecting with people but has transitioned into a platform for promoting oneself and one's brand. The conversation delves into the negative effects of excessive social media use, including increased anxiety, depression, and loneliness. The speakers discuss the challenge of balancing promotional content with more authentic, personal content to effectively engage the audience. They also mention the importance of being present in real-life social interactions. Overall, the script emphasizes the need for intentionality in using social media and the potential negative consequences of its overuse.

In this episode, Dan and Chloe provide their perspective on the evolution of social media, effective strategies for brands, and the potential impact of digital interactions on mental well-being. The episode encourages listeners to think critically about their online presence and to find a balance that promotes both personal and professional growth.

TAKEAWAYS
